

# Don't Put Up With Slip!

Use Neptune™ Floats with Clamp Tite™.

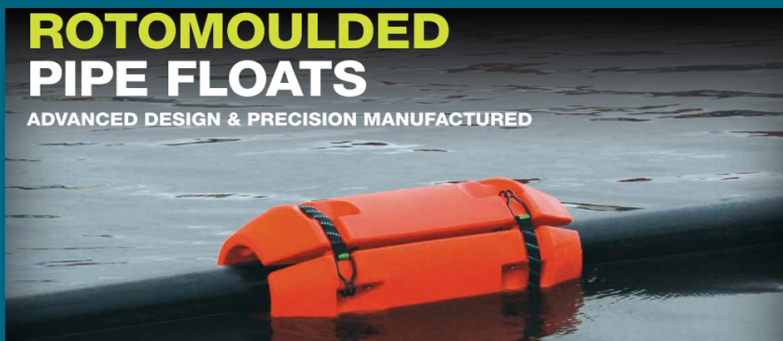

## Neptune™ Flotation

### ROTOMOULDDED PIPE FLOATS

ADVANCED DESIGN & PRECISION MANUFACTURED

Neptune™ Flotation is the leading pipe float manufacturer for dredgers internationally. Product includes at surface and above surface pipe flotation. Capable of floating plastic and steel pipe pipe, cable, and hose with diameters of 2" (50mm) all the way up to 30" (750mm). All of our products incorporate solutions to common issues the industry faces with pipe flotation applications. Clamp Tite™, our most popular feature, solves pipeline slippage issues, ensuring our floats don't bunch up on your pipe line. This is one of many reasons why customers are calling Neptune™ Floats second to none.
